PHILOSOPHY

Creative and performance driven Producer Auteur. As a director I'm a danse macabre futurist and as a comedian I understand the relationship of I believe in working with every aspect of the project I'm producing to make sure we get the most impressive project that we can get. Every film is a life, and I am Dr. Frankenstein, it's my duty and pleasure to lead all of the departments in creating this life. It is imperative to help and allow the team to find their own creative groove and inspirations. Writing, Music, Art, inspirations, talent and heart come together to one hearth to create this project where there once was nothing but a spark of an idea. I'm a natural leader and have a talent of setting goals and making sure they're met.

Special Mentions

I have won several film festivals throughout Europe, Canada, England, and the US. I constantly place in competitions like Cannes, Edinburgh, London, The Czech Republic, and along the East Coast of the US mainly. I have served on the board of directors and was one of the creative directors of the ME Film festival in middle Georgia.
